How old the record is

So you know how old the source is before acting on it. When the County publishes something new for a location you've confirmed, it appears in the next weekly view with its own dates.

Garden Kitchen inspection, the County's page

Garden Kitchen, Los Angeles. Routine inspection. Inspection date: August 27, 2026.

Your next step

Before a decision that depends on the latest inspection, open the County's page from the item and check for anything newer.

What this does not tell you

A recent read is not a new inspection. The docket shows what the County has published, not the state of the kitchen today.

About RestoDocket

Keeps one docket of public inspection records for the locations you confirm, with the record behind each item and the person you assign. **\$199 per month**. See pricing at restodocket.com/access/.
